

ANAMOL
THE ORIGINAL MAKERS

About Company

Established in 1998, **ANAMOL LABORATORIES PVT. LTD.** today is synonymous with Quality and Consistency. The very name of Anamol comprises two separate words combined together as one which are “**ANA**” and “**MOL**” which means “**ANALYSIS of MOLECULES**”, explaining our core strength in understanding Chemistry and Biochemistry as a subject and how different molecules interact with each other.

This Knowledge has helped us in formulating and manufacturing of In-Vitro Diagnostic Products.

We specialize in :

Clinical Chemistry, Serology, Immunoturbidimetry, Urine Strips , Controls and Calibrators Rapid Immunochromatographic Assays, Laboratory Stains, Laboratory Dyes and Molecular Biology etc.

Vision

To contribute in Adding Disease-Free Years in Human Life

Core Values

Five water molecules represent our five core values

Mission

We shall strive to achieve trust of our customers by providing them dependable diagnosis through our products. To achieve global footprint as one of the most reliable and preferred healthcare company.

Customer Commitment
Win-Win Relationship
Accountability
Knowledge Management
Ethics.

ANAMOL
THE ORIGINAL MAKERS

Why Us?

A Genuine gap

- » India is one of the fastest growing economies in the world.
- » Manufacturing activity in India started long back in 1980s.
- » Yet, as of today only a handful of manufacturers available.
- » Out of these, the science of designing biochemical formulations limited to only a few.
- » In a country with such large population and skill-sets deserves more formulation makers.

What makes us special?

- » **ANAMOL IS THE ORIGINAL MANUFACTURER.**
- » We have manufacturing experience of 37 years and counting.
- » Our knowledge and our attitude is what makes us special.
- » We understand Chemistry and Biochemistry subjects very well.
- » Our attitude and willingness is to create best biochemical formulation, manufacturing processes and people, which in turn creates world-class products.
- » Most of our products are Researched and Developed by our internal team of subject experts.
- » Our formulations have high conformation to international standards.
- » We have very stringent Quality Control protocols.
- » We carry a strong track record of manufacturing quality reagents for our brand and multiple brands on OEM basis.

QUALITY CONTROL

- » Global Quality is our philosophy.
- » Our internal QC protocol includes:
 - » Checking quantities of components in reagents.
 - » Checking functional performance and characteristics of individual components.
 - » Checking various parameters of reagent system such as pH, blank absorbance, etc.
 - » Checking shelf-life of products at different temperatures.
 - » Perform accelerated stability studies.
- » Every batch of product manufactured gets tested against 4 independent third-party controls of normal and pathological range.

CLINICAL CHEMISTRY		
CODE	PRODUCT NAME	PACK SIZE
LA01	ACID PHOSPHATASE	20 ML / 50 ML
LA03	ALBUMIN	200 ML / 1000 ML
DA01	ALKALINE PHOSPHATASE	20 ML / 50 ML
LG06	ALT (SGPT)	50 ML / 200 ML
LA04	AMYLASE	20 ML / 50 ML
LG05	AST (SGOT)	50 ML / 200 ML

ST11	Albert's Stain A&B	100 ML
ST38	Bennhold's Congo Red Stain Kit (For Ameloid Deposits)	100 ML
ST13	Cytochrome Kit with Buffer 2X (Modified Leishman's Stain)	500 ML
ST03	Field Stain A&B	2 x 100 ML
ST08	Giemsa Stain - Ready to Use	500 ML
ST33	Giemsa Stain with Buffer	500 ML
ST04	Gram's Stain Kit	4 x 100 ML
ST28	H&E Stain Kit (Hematoxylin & Eosin)	100 ML
ST05	Immersion Oil	100 ML
ST06	Leishman's Stain	100 ML
ST29	Lugol's Iodine	100 ML
ST15	Malaria Stain Kit (JSB I & II)	2 x 100 ml
ST16	May-Grunwald (With Giemsa Stain)	3 x 100 ml
ST19	Methylene Blue - Solution	1 x 500 ML
ST10	Pap Stain Kit	250 Smears
ST17	Reticulocyte Stain	25 ML
ST14	Wrights Stain with Buffer	2 x 100 ML

Experience of the Founder and Managing Director

Mr. Mahendra Dashora

Over 37 years of experience in manufacturing of biochemical formulations in India.

- Quality Incharge with Bayer Diagnostics (Siemens Ltd.) - (1981 – 1984)
- Co-founder and Technical Director of Accurex Biomedical Pvt. Ltd - (1984 – 2004)
- Managing Director of Anamol Laboratories Pvt. Ltd. 2004 - till now

Achievements

- 1984 – First time indigenously manufactured enzyme based lyophilized Clinical Chemistry kits in India.
- 1984 – First time indigenously manufactured Urine Test Strips in India.
- 1992 – First time indigenously manufactured liquid stable Clinical Chemistry reagents in India.

How we Build Quality?

Our Attitude

- » Quality is a result of a series of well-planned actions to achieve a specific objective.
- » We always put Customers First.
- » We focus in adding value to products and thereby continuously improving customer experiences in dealing with us.
- » We show utmost willingness in building good quality products by pushing our boundaries and upgrading our skill-sets.
- » Our business priority is to create new and relevant solutions for changing customer and market demands by our in-house Research and Development activities.

Raw Materials

- » We employ highest quality Raw Materials such as Genetically Engineered (GE grade) enzymes, Zwitter Ionic Buffers, LR grade (highest purity) chemicals, etc. from the best sources across the globe.
- » We use high quality reagent grade water after a stringent 5-step purification process to manufacture our products.

Formulations

- » We design our own Biochemical Formulations.
- » Our formulations have a very high conformity to international bodies such as IFCC, DGKC, SCE, etc.

Production Environment

- » Controlled environment of manufacturing of specially designed biochemical formulations.
- » We have particle-free zones, low humidity chambers, low total microbial count areas.
- » All instruments used for manufacturing are well calibrated to international traceability.
- » We perform regular disinfection of manufacturing rooms.
- » Finished goods and goods-in-process stored only in virgin plastic containers of desirable specifications in cold-rooms with controlled temperature, humidity and light.
- » Manufacturing process employ multiple check points to reduce errors to minimum.

Our Facility (Factory)

- » State-of-the-art production facility of 27,000 sq.ft. area.
- » Located in Palghar – 100 kms North of Mumbai's Chhatrapati Shivaji International Airport.
- » Well connected by Air, Sea, Rail and Road for multiple modes for transport.
- » Entire facility certified by Food and Drug Administration (Schedule M).
- » Entire facility certified by GMP and GLP.
- » Production capacity of 2000 liters/day of liquid and 3 million tests/year.
- » Availability of Clean rooms, Particle-free zones, Class 10,000 production areas.
- » All manufacturing processes done under controlled environment of humidity and temperature.
- » Availability of 2 separate and spacious cold rooms with area upto 1,000 sq.ft.
- » Facility well equipped to run 4 separate manufacturing lines at parallel with multiple check points for minimum errors.

Certifications

We have established ourselves as the most technically expert manufacturer.
